Rigger Safety Training Course The ETS Rigger Safety Training Program is a state of the art rigger training aid. This program covers all the pertinent requirements of the current OSHA 1926.251, OSHA 1910.184 as well as the ASME B30.9 and B30.26. Using a combination of animations and illustrations the ETS Rigger Safety Training Program is an excellent preparation for the NCCCO Rigger Certification Program. Covering all aspects of rigging including: Slings, Hitch Types, Rigging Hardware and Knots. The ETS Rigger Safety Training Program will guide students on their way to becoming a safe and productive rigger. Includes Training Program, Instructor Guide, Student Guide and Review Questions. <i>Training program comes preloaded on a flash drive, please indicate if you use MAC or Windows</i> .
